404 pages

Here are all the pages that could throw a 404 since they accept a [uuid] of some sort:

- `(onboarding)/onboarding/assign-task/[taskUuid]/`
- `(onboarding)/onboarding/new-label/[taskUuid]/`
- `(onboarding)/onboarding/new-task/[workspaceBoardUuid]/`
- `(onboarding)/onboarding/new-workspace-board/[workspaceUuid]/`
- `(platform)/dashboard/task/[taskUuid]/`
- `(platform)/dashboard/workspace/[workspaceUuid]/`
- `(platform)/dashboard/workspace-board/[workspaceBoardUuid]/`
- `(platform)/dashboard/workspace-board-section/[workspaceBoardSectionUuid]/`

Here are some test links:

```
http://localhost:3000/onboarding/assign-task/does-not-exist/
http://localhost:3000/onboarding/new-label/does-not-exist/
http://localhost:3000/onboarding/new-task/does-not-exist/
http://localhost:3000/onboarding/new-workspace-board/does-not-exist/
http://localhost:3000/dashboard/task/does-not-exist/
http://localhost:3000/dashboard/workspace/does-not-exist/
http://localhost:3000/dashboard/workspace-board/does-not-exist/
http://localhost:3000/dashboard/workspace-board-section/does-not-exist/
